Product Discontinued

10/6/16

PRODUCT NAME: Electric Ladder Pipe

AKRON PART NUMBER: 1494

OVERVIEW

Due to changing firefighting tactics and availability of new technology, the market has shifted away from electric ladder pipes. As a result the style 1494 Electric Ladder Pipe is being discontinued. It will only be available for purchase through the remainder of 2016. Please see our recommended alternative products for purchases beyond 2016.

ALTERNATIVE PRODUCTS

StreamMaster™ II

The StreamMaster™ II firefighting monitors provide efficient flows up to 1500 or 2000 gpm (5600 or 7600 lpm). These firefighting monitors provide advanced features like programmable obstacle avoidance, oscillation, and stow/deploy positions. The 355 degree rotation and 165 degree elevation range can be configured for deck or aerial applications making this high performance compact monitor universal.

Style 3482

Style 1495

Manual Ladder Pipe

Akron Brass offers two manual ladder pipes. Featuring lightweight aluminum designs, 2 ½ inch inlets and adjustable mounting clamps; these ladder pipes offer a great solution for unpowered ladder trucks.

EFFECTIVITY

January 2017
