Product Update

July 27, 2020

PRODUCT NAME: R1 Handle for 2.5" – 3.5" Swing-Out Valves
AKRON PART NUMBER: 721238

The Item 721238 is the current 6 3/4" R1 handle for use on Heavy Duty Swing-Out Valves. It is used primarily for remote valve operation of the Style 8800 series valve. The item is being improved to allow more flexibility with mounting options by adding a second mounting hole location at 5" in addition to the 6 3/4" option.

The Item number 115613, our previous 2-hole option, will be going away and replaced with the new number of 721238. After August, you will no longer need two different R1 handle item numbers based on your preferred mounting hole location.

LIST PRICE (US Dollars, FCA Free Carrier Our Dock, Wooster, OH USA Incoterms® 2010)
