Product Update

May 14, 2021

PRODUCT NAME: Turbojets, Assaults & Shutoffs - Metal Ball Option

**AKRON PART NUMBER: 1702, 1704, 1720, 1763, 1723, 1733,
4802, 4863, 4826,
2431, 2433, 2102, 2126, 2127, & 2390**

Akron Brass now offers handline nozzles with an optional stainless-steel metal ball.

Choose the best material to deliver the best results for your application. The standard, composite material on our ball shutoffs takes advantage of the corrosion resistance and lightweight characteristics of this material. A stainless-steel metal ball shutoff may be preferred when dealing with water that is full of a hard debris. No matter the situation, Akron has a nozzle to meet your need.

Akron Brass handline nozzles are the industry standard for performance and durability which are backed by a 10-year warranty.
