## Pricing Notification

June 21, 2019

**PRODUCT NAME: Butterfly Valves**

**AKRON PART NUMBER: 7940, 7945, 7950, 7960**

We at Akron Brass highly value you, our customer, and we continually strive to meet your expectations. In the fall of 2018, we experienced substantial cost increases for the components of our Butterfly Valves. With the uncertainty around the future of this product line, we decided to omit pricing from our 2019 List Price Guide. We have spent the past six months on an alternative component sourcing project and determined, to maintain existing functionality and quality, price increases are unavoidable.

Therefore, this letter serves as formal notification that the List Price of our Butterfly Valve line will change effective 8/1/2019. New prices will take effect on the 7940, 7945, 7950, and 7960 valves. We feel it is important to note that price of our Electric Actuator, purchased as a standalone item, will remain the same as it is today. As our valued customer we will continue to honor our current pricing on any orders you place prior to 8/1/2019, provided you are willing to accept shipment prior to 10/1/2019.

### Butterfly Valves (List Price - US Dollars)
