

### FEATURES

### BENEFITS

#### UltraView Display

- Proven reliable track record in the fire service
- User friendly icons for easy understanding at a glance
  - Diagnostics
  - Compressor over speed warning
  - RPM too high to enable CAFS
  - Operating temperature of compressor high
  - Air inject indication
- Concise display of information
- Touch screen and one button control
- Capable of multi-languages

#### Freedom of Choice

- Freedom to adjust foam ratio based on application need
- Extremely wet 1:3 to extremely dry 1:20
- Programmable for a single setting for ease of operation

#### Safety Interlocks

- Prevents dangerous conditions of air only, or air and water from occurring

#### CAFS Mixing

- Balancing valve automatically tracks air to water pressure between 50 – 150 psi
- Stainless manifold with patented Hale X-mixers create uniform bubble structure before the hose

#### Integrated System

- Simplifies OEM installation

#### 200 CFM Compressor

- Operates up to three (3) 1 3/4" hoselines in "wet" mode.
- Heat exchanger keeps compressor from overheating
- Belt drive using a herringbone type drive belt for superior reliability

#### SmartFOAM System

- 5.0 GPM foam system
- Use with Class A and B foams
