## New Product Release

April 2020

**PRODUCT NAME: Generation II Swing-Out™ Valve Electric Actuator**

**PART NUMBERS: 8615, 8620, 8625, 8630, 8635, 8915, 8920, 8925, 8930, 8935**

### PRODUCT DESCRIPTION

---

The all new electric actuator is based on the current durable design but incorporates many improvements.

The generation II electric actuator features manual overrides on two sides and is **34% smaller** and **68% lighter** than the current style. The reduced size means more space in the pump house, allowing for more **versatile plumbing configurations, easier installation of valves and is more accessible for maintenance**. Plus, the new electric actuator requires a lower current draw and with fewer parts.

The new electric valve actuator will replace all current electric actuators on Heavy Duty Swing-Out valves 2.0" to 3.5" and **now includes 1.5" valves**.

### FEATURES

---

- Manual override on two sides
- Compact design (34% smaller)
- Lightweight (68% lighter)
- Available with 1.5" valve
- Lower current requirement
- More accurate position feedback
- Patent-pending

### PRODUCT SPECS

---

- Available on 1.5" to 3.5" valves
- Volume – 143.8 in<sup>3</sup>

**Old Actuator**  
Volume - 217.6 in<sup>3</sup>

**New Actuator**  
Volume - 143.8 in<sup>3</sup>

## New Product Release

### LIST PRICE (US Dollars, FOB Wooster, OH USA)

---

#### 1.5" Electric Valve Actuator and Body Sub Assembly, less controller

Style 86158001

\$1,758.80

#### Electric Actuator Only

Style 8615xxxx

\$1,540.00

#### All 2" to 3.5" Swing-Out valves with electric actuator

No change

#### Kit Handwheel Manual Override

Style 86258005

\$45.00

### AVAILABILITY

---

Accepting orders May 2020

Shipping begins June 2020

### SPECIFICATION

---

An Akron Brass Electric Actuator for 1.5" to 3.5" Heavy Duty Swing-Out Valves shall be provided. The electric actuator shall be less than 7" x 7" and less than 4" high. This actuator shall weigh less than 5.5 lbs. The electric controls must be of true position feedback design, requiring no clutches in the motor or current limiting. The electric actuator shall have a manual override on two sides. The valve shall be manufactured and assembled in the United States. Product must carry a 5-year manufacturer's warranty.

**Optional Handwheel Kit**  
Attaches to either side  
of the actuator
